

2017-2018 (Lise Pigeon) DRAWING & WATERCOLOUR
Children and Teens 6 to 17 years old
Description and material required

This course is designed for children who wish to develop their artistic skills. They will learn drawing and watercolour techniques adapted to their capacities. Among other things, we will consider forms, lines, colours, organization of space on the page, composition and appropriate art vocabulary while enriching his/her sense of observation. For more advanced students, we see the notions of perspective, light, shadow, colour mixing and the notion of value. Everyone will have the chance to create works which he or she will be proud of.

- **Bring the supplies you already have .. if not, here is the supply list required**
